Academy

Now
(October release)

Academy MCP Server
Connect AI agents directly to your Academy data

Events Enhancements
Add Zoom Webinar links to events and auto track attendance.

Salesforce Custom Field Integration
Allow custom registration fields to sync between Academy and your Salesforce

Next
(January release)

Practice in Academies (formerly AI Simulations)
Your partners and customers practice the conversations that matter, before they happen.

Later
(Active exploration)

Create integration
Seamless integration for world-class content authoring.

UK Localisation
Introducing UK Date/Time and language.

Done
(Recently released)

Analytics Studio AI (Docs)
Ask questions, get answers. Explore your Learn:Up (formerly WorkRamp) data in natural language.

Academy Portal Localisation (Docs)
Deliver a native language experience for global teams.

Prerequisites (Docs)
Ensures learners have the necessary knowledge before accessing advanced materials

Bulk Contact Invite (Docs)
Reduce friction for large-scale user onboarding and cohort launches.

Richer Collections (Docs)
Now with Paths, Certifications, Events and Sub Collections.
